ACHIEVEMENTS

Wordpress Webpage Creator

I have created many different types of web pages like online shopping page, portfolio, site maintenance page, etc.

TRAINING/CERTIFICATIONS

Basic Computer Course

Dhangadhi College of Information Technology / 2017

I have learned basic idea about computers including computer types, Ms Word, Ms Excel, Ms Power Point, Computer Applications, hardware systems, and more.

PROJECTS

Online Voting System

I had worked on Online Voting System project. We have created Online Voting System with the help of HTML, CSS, JS, MYSQL, PHP. In this website you can sign up, login, edit profile and vote online to them which parties you like and Once you give vote then you can't do to vote again.

Online Banking System

I am working on this project. We are 3 members in a group and my part is to design banking dashboard. I have completed the design of Dashboard with the help of HTML, CSS and Javascript. In the dashboard you can see information related to your bank account information like online transactions, your balance, etc. In this project you can see frontend part like Login page, About page and Dashboard.
